

2009

Bay Area Renaissance Festival

At MOSI

Presents

Italian Masters: The Da Vinci Legacy

March 13th, 21st and 22nd, 2009

Dear Robotics enthusiasts and inventors of all ages,

The Bay Area Renaissance Festival would like to invite Robotics teams to demonstrate and display their robotic inventions at the Festival grounds at MOSI.

I would also like to invite you and any of your inventor friends to celebrate the legacy of Leonardo Da Vinci on our Italian Masters Weekend. It is your chance to set up a tent and display your most recent invention for all to see and appreciate.

There is no charge to be involved. Simply fill out the form that is included with this letter and let me know how big a space you will need. I would love to see representation from all of the local inventors groups, Robotics Groups and Science Groups in Southern Florida.

Please feel free to contact me should you have any questions.

Thank you,

*Debra Jackson-Dechert
